The Inquisition: A History From Beginning To End

Synopsis

The Inquisition* * *Download for FREE on Kindle Unlimited + Free BONUS Inside!* * *Read On Your Computer, MAC, Smartphone, Kindle Reader, iPad, or Tablet. The Roman Catholic Inquisition was one of the most controversial organizations in human history. Although it has been painted in a negative light, the Inquisition was too broad in scope to define as simply good or bad. It was a period where conflict and bloodshed were inevitable. It was a time where war, famine, plague, and poverty were common factors of human life. From the 1180s to the 1830s, the Inquisition was the judicial arm of the Catholic Church. Created to root out and punish heretics within the Catholic faith, the Inquisition became an institution that would carve its name into history. Inside you will read about...â€œ The Conception of the Inquisition â€œ The Hammer of Witches â€œ The Spanish Inquisition â€œ The Portuguese Inquisition â€œ The Roman Inquisition â€œ Shades of the Inquisition in Modern Society And much more! Throughout its many variations, the Inquisition took hold in France, Spain, Portugal, and Italy and in the process, both hastened and stunted progress in Western society. The Inquisition was as multi-faceted in its failure as it was in its successes. Though it was responsible for the deaths of thousands, it was also responsible for the sparing of thousands more. The Inquisition put to death some of the brightest minds of the time, and yet their brutality quickened the pace of the Renaissance and the Enlightenment. In short, the Inquisition was many thingsâ€”easy to define is not one of them. This concise, compressed guidebook reveals the history, failures, and successes of the Roman Catholic Inquisition from its birth to its final death rattle.

Customer Reviews

The e-book *The Inquisition: A History From Beginning to End* is especially useful for someone like me who has heard the words Inquisition and only know it has Catholic Church sanctioned torture. Too bad the church did not maintain its original process where if a person was found innocent then the accusers are tried. At one time the church was all-powerful and very few people dare challenge its authority. The author clearly indicates that the Inquisition was brought about because the church was afraid of losing that authority. The church should never have sanctioned the Crusades because the individuals returning to their lands in Europe saw different things and developed different ideas. The author seems to be an apologist for the Inquisition because the author believes that if the church did not sanction the Inquisition than the rulers of Spain would have condoned greater atrocities. I found this to be a nice informative read that enlightened to me in less than an hour. If I want to know more about the Inquisition, there are plenty of books on or the library to choose from.

Good historical value. However, conclusion was quite opinionated.

Very interesting, not what I supposed the scope of the inquisitions were. And I found it reveling, in the conclusion, that contemporary ideas of restricting immigration may be an implement of preventing future inquisitions. Seems some things will never change.

Great review of dark history. Thank you

Too short and didn't go into a whole lot of detail. I guess I just expected more from a subject as varied and complicated as this.

Excellent book.

An excellent history of the Inquisition. But, there was too much preaching about liberal attitudes toward open borders, etc.

very weak and unoriginal study reflecting no real work at all.
