Customer Reviews

Fun crochet patterns to felt! It really is a magical process. It amazes me how something 3 times bigger than what I need shrinks down to a size that fits perfectly.

Great tutorial and inspiration for creativity.

excellent how to information with some sample type projects.

This book has bags, clothing and animals..I just started my first project and can't wait to see the

results. Nothing is at a advanced level of experience. Definitely a must have for my library.

GREAT it is in very good shape.Thank You

O.K.

Nice book, but it's missing directions. It would be nice to find out how to contact the author for some clarification.

Four stars = I like it. And I do. But am still thinking about buying it because I feel the editing has let her down, just from looking at the sample on . E.g. Degreesees... really? and some repeated lines in the copy and the subsequent loss of meaning that someone should have picked up before publishing. The images though are evocative because the feel and texture of textiles is what grabs me about hand-made cloth. It's photographically not a how-to book, but the introductory passages about what happens when crochet meets felting are enticing.
