for some reason, I thought it would have the notes filled in....I was taking piano lessons but I have a hard time reading the notes....I know what they are, but in order to play, I have to go and write c or d or whatever note it is. My piano teacher thought it was a little advanced for me. Although I know Doe Ray Me by heart. I gave up piano lessons. have several other books I use.

I bought this for my 7 yo girl who's been playing piano for 1 year. She saw Sound of Music so was begging to learn the famous songs like " Favorite Things" and "Edelweiss". We excitedly brought this sheet music to our piano eager to try out the music but she was very disappointed in the lack of similarity to the original. I know it's because it's a beginner book , but the level is ideal for my daughter

My grandchildren and family love the Sound of Music and now able to learn to play the songs they love on the piano.

I'm teaching a student from this book who has never played She is picking it up fast and learning just her right hand now. Very good. Good font size on the notes for beginners too !

No lyrics. Odd intros.

Fast shipping, nice product!

My granddaughter is excited about being able to play Do-Re-Mi, Doe a deer a female deer, which is her favorite song from the movie.

a pretty easy version for the kids
