Holy cow....This particular mini-series blew my mind! Being someone who has been reading comic books since he could remember, I have read A LOT of really good stories from the comic book landscape, and so I have quite high enough for what makes a comic's story good. I rarely find a mini-series very interesting, and prefer to stick to longer story arcs, so I wasn't expecting much at all from these "Disney Kingdom" stories. So, imagine my surprise when I actually read it and found it to be of extremely high quality! The story is very well written, especially considering how short of a time they have to tell it, and includes many aspects that caused me to eat the story up! I couldn't put

it down. Besides that, I thought that the main characters was one of the most well written female heroes in modern comics; kick-butt, but still feminine, with a fantastic personality. While it's not THE greatest comic mini-series ever written, it is still enormously fun; easily my favorite Disney Kingdoms story so far (even after reading ALL of them). Don't be fooled by the word "DISNEY".....

Arrived in time for Husbands Birthday, but it was damaged. He loves the book which is what I wanted, but I'm a collector and to me, it's worthless now. Needs to have a meeting with their shipping department.

This comic was fun to read, and did a nice job of wrapping up the story within the book! Lovely artwork and strong female character. I also love the Disney Park information given about the actual ride.

My 12 year old daughter absolutely loved this!

send to my son, recommend it to my friend. help me a lot. If you have only one product, this is the one to have it's no delayed.
