The Art Of American Game Calls: Identification & Values

Synopsis

Russell E. Lewis If you are hunting for the best book on American game calls, this is it. More than 275 game calls, made by traditional and company call makers, are featured in close to 400 color photos. Each call is identified as to maker, approximate age, area of manufacture, and current collector value. Examples of famous call makers such as Perdew, Allen, and many others are included, as well as a wide sampling of calls from lesser known makers. In addition, the book profiles the major American call companies like Faulk, Herter's, Lohman, Mallardtone, and Olt. Most of the calls have never before been seen in print.

Customer Reviews

When I purchsed this book, I had in mind to use it as a coffee table book, but when I recieved it I had not been able to let it down long enough to let it gather that coffee table dust....It is the most revealing history of duck calls collected over the years of a highly acclaimed call maker, Joe Jaroski, whom I have had the priveledge to meet with during a Callers Show in Tennessee this year. Not to mention calls made from some of the country's best makers...to the calls made by these same people as novices...evaluating a call for its monetary worth is tricky, but this book will help you learn when it comes to purchasing calls, and what to look for when collecting calls. It is a great book to have and to share with friend.

This book has a vast array of photos of calls from all eras but doesn't really share much detail

regarding in-depth explanation of the calls. Basically just a photo collection of calls from a diverse array of makers across many years.

a

I was hoping this book covered more than just this area or group of duck calls. I was looking for more spread out calls from the south. still good at showing duck calls tho.

Ok for a reference book, a little out of date but still useful.

Purchased this book to do some research on calls and found lots of great info. Great historical to present info if your new to collecting calls.

It's okay for the price. I expected more...

Great photos and the price is way less than other vendors, including eBay. A very nice overview of some American legends!!
