Customer Reviews

Love this book! Lost my first copy over the summer and finally broke down and bought another copy. So many good ideas that the students love. Wish I had enough time in the day to do all the things mentioned. Love the list of books and how you refer to books. Makes it much easier to use. I was fortunate to hear Dr. Walther in person years ago. Great resource.

This is a great resource providing teachers with specific lessons to meet standards and help

students to build up their writing skills! There are also book ideas included to support the lesson. I've recommended it to others and they have purchased it already.

I was just appointed as the new Primary Writing Coordinator at my school. This book was just what I needed to bring our writing program together and get us all on the same page. The scope and sequence is just right for the primary grade levels. It was written by two first grade teachers so, it is definitely age/grade-appropriate. Everything is provided, including literacy selection suggestions. I am very happy with this selection!

These activities teach or allow practice for very basic writing skills. They are easily integrated into the day and pay off through repetition and practice. I would recommend it for young learners, under grade 3 (may be too elementary for grade 2 in some instances...depends on the level of the learners). I use it with language learners grades K-2.

Loved using this book for setting up a reading group rotation!

This book is amazing I really can't say anything bad. It gives you great ideas for morning messages every month, shows what student work should look like. It has changed the way I teach writing for the better.

Looking forward to using this.

This is exactly what I was looking for to start a new year of writing in first grade. It has a curriculum map outlining the year and scaffolds lessons according to the 6 Traits of Writing. I am looking forward to implementing this great system in my first grade classroom!
