Customer Reviews

This book is great and even better for the price I had to pay for, less than a dollar.

The book is worth reading. And it looks like never been used when I got it.

I was blown away by how sharp this product is. It cut throw my very soft loaf of Italian without a single tear. I hesitated before I bought it because of another review who said it wasn't sharp enough, but mine is outstanding. I will recommend it to my friend. my family , fast shipping. perfect.

all three are very good boo

Actually,My review is a sort of complaint.In chapter 11 where troubleshooting was treated,items 1-3 were treated on pages 390-395,but item 4 was not treated,I don't know what went wrong,I checked other copies of it but they were all the same.
