Customer Reviews

This classic book has been out of print for five years, and used copies have actually sold for \$200 on the Internet. Now this volume is back in print in a greatly expanded, revised edition. All pages of the original edition have been retained and more than 800 perfume bottles are shown in color. The revised edition adds new essays by three leading perfume bottle authorities. Ken Leach describes America's fascination with perfume bottles and related items (c. 1910-1950), with special attention to the role played by Hollywood. Ruth Forsythe writes about recent reproductions of Czech perfume bottles. Madeleine France provides new historical perspectives and offers a hierarchy of perfume bottle categories to aid the collector. Accompanying these essays are 62 new photographs in spectacular color. With the addition of this new material, the book has expanded from 128 to 16 pages. An up-to-date 1999 price guide concludes the work. This book provides essential information to collectors, and is a visual delight to all lovers of beauty.

Lovely pics , very enjoyable!

This is a GREAT book. I bought it for my daughter and I'm going to buy one for myself. It is full of photos and as the saying goes "seeing is believing". This is a much needed book for the collector to see so many perfume bottles and I like the copies of original 1930's ads.

I already had the first version. This is an update of prices and reproductions.

Excellent book. Great for collectors.

Great colorful book

arrived in excellent condition, beautiful photos, detailed information, history and values at the time of the publication. Lots of good background information, dates, etc.

Bought this a gift for a perfume bottle collector. She LOVED it! Talks about it all the time. Some of her friends have even asked me where I got it. Glad I bought it for her.

Great book and so glad I have it! Pictures are excellent and makes a nice reference book. Wish there was a nice edition.
