Our 5-year-old daughter (kindergartener) had problems sounding words out, so I purchased this book for its short reading passages and follow-up comprehension questions. The readings are theme-based. Each week there is a different theme. Around that theme, there are 3-4 short paragraphs plus a writing prompt. Each short paragraph then becomes the daily reading. The short paragraphs are usually composed of 3-4 sentences and followed by 4 questions related to the topic.

We usually do this daily practice within 30 minutes -- not too long nor too short -- and it improves my daughter's literacy significantly. I absolutely love the scaffolding this book provides! Another point to love this book is that although pictures are sometimes provided in this book, they are not too many like the other A-level reading books, which impedes the readers from trying to sound the words out by the alphabets, not the pictures. My daughter tends to look at the pictures and guesses the words without trying to pronounce them by phonics. The text-focused style pushes her to pay more attention to the words themselves and thereby boost her literacy. Now she enjoys sounding out any words in sight! Yay!!

Book is black and white. Not fun for kids. Looks just like copies. Not worth \$20

Great book!

great book for my 6 year olds

I use this in my classroom and love it. It is a quick assessment that allows me to see what my students know and do not know.

I am a tutor and help 1st graders who just came to America. They had a big problem in understanding the instructions when they were given tests in class. This book helped resolve the issue. I am very thankful. Recommend it to all 1st graders or those who help them

I love this series and have all of them. I use them daily in my Autistic Support class. Great independent work and homework.

This is the second book we got her to do. She attends public school so this is just for her to do on her free time. Personally I love it because she doesn't need help reading direction and can read and complete all the parts independently. Readings are short but for independent work, I prefer that so she doesn't get too intimidated.
