"As millions already know, any book carrying the Kovel byline will be as reliable, informative, and fact-filled as any collector could wish."--American Country Collectibles
"What the Koveles don't know about antiques isn't worth knowing."--House Beautiful
"The Koveles are arguably the authorities on

antiques and collectibles in this country."--Los Angeles Times

Well I was really looking forward originally to obtaining the book but most of the "Pricing Values" are way off when it comes to today's actual markets and what these bottles are worth, it just seems to me you can basically learn most of the things contained in the book for free or online by using simple search techniques or possibly just looking into online bottle resources. If you want to have some good Literature on bottles this is OKAY, but don't expect the prices to 100% Accurate and that's really the truth, some are WAY OFF.

Good updated price list, wish there were a few more illustrations.....but now I have a go to price list that covers many different styles and a whole lot of eras. Probably the most complete book of its kind.

Great book to help in trying to find what kind of bottles you have in your collection. Dug up quite a few from grandparents old farm and was pleased to find information in this book. One of the better books I have purchased on bottle collecting.

Great book !

Ã Â Â^Â

fast shipping, great sale

This book is excellent for those with very old bottles, I have many from grandparents and so few were actually in this book. It would satisfy the vintage collector more. Thanks

I have tried to look up over 100 different bottles in this book and have not found any of them in here yet???? I am not sure what good this book is. It has the common ones in it and thats about it. Maybe its good for beam bottles or something like that but for beer bottles, soda bottles, bitters, mineral waters, etc...it is worthless !!! I wouldn't waste your money on it if I were you. There are alot better books out there for you.
