Miniature Perfume Bottles (Schiffer Book For Collectors (Paperback))

Synopsis

Perfectly detailed miniature perfume bottles have always fascinated collectors. This book, packed with full-color pictures, is the first to document these miniatures. From the demure and delicate antique bottles of the last century, dramatic and striking Art Deco bottles of the 1920s, and graceful bottles of the World War II era, to today's variety, Glinda Bowman's book covers the range. The top makers are well-represented, including Lalique, Guerlain, Coty and Lenthéric, with a special section of the popular bottle produced by Avon. Bowman has also compiled a fascinating history of perfume.

Customer Reviews

Glinda Bowman is a collector and dealer from Wheeling, West Virginia.

I love Perfume Bottles! And when I find the little ones, it's a fabulous day! I love this book, so many beautiful miniature perfume bottles, organized so well. I have a wonderful collection and this just inspires me to continue working to make it larger. I knew there were many bottles out there, but WOW! The beauty and sophistication is amazing! I look at this book constantly, among my others. It is photographed so well and the descriptions are wonderful. This is a great book for the beginner or the expert. It is a perfect size to take along when you travel. I highly recommend it. I hope the author comes out with another one!

Listing of many perfumes but the Price List leaves a lot to be desired . For example none of Avon's

vintage perfumes are priced at all. Rather disappointing for a reference book.

The book was comprehensive.....as far as it went, which was not very far. What WAS there was good, but my collection has over 500 miniatures and 99% of them were not represented. For an absolute beginner, I'd recommend this book highly, for those who have been collecting for years, it really doesn't have much to offer.

love this book - the info about the mini's and approx amount each bottle is worth, I looked thru the whole book several times when I got it.

Helps with research

This is an excellent book for anyone who collects mini perfume bottles. It has a price guide in the back that is very helpful when buying, selling, or trading minis. Ms. Bowman's other book is every bit as informative.

Love this book, hopefully it will help to continue my education in the world of miniature perfume bottle collecting! Exceptionally fast delivery and am very happy with my purchase and the seller's care in packaging it so it would arrive undamaged.

For the collector of new miniature perfume bottles - this book would be fantastic. If you are looking for a reference book for older perfume bottles, this book is not for you.
