An excellent source of information. I love the illustrations I love the illustrations. Plus I love collecting fragrances. I definitely recommend this book.

Interesting read

Nice history of every perfume company! No ratings as far as individual perfume. Still a great book

for every connoisseur.

This is a decent addition to a perfume junkie's book collection. There is information about long established perfume houses, as well as the newer ones, and some interesting info about specific perfumes.

Spend an afternoon on fragrantica or basnotes and you'll learn all this and much more. Free! I was so shocked by the lack of comprehensiveness. I could write a better book on perfume and I've only been interested for two years. Really shockingly low grade.

Love this little book. Easy and enjoyable read. Informative too. Not too much information but enough to satisfy. Definitely recommend.

Good book to read about perfumes

great book for the perfume buff
