Book by

Beckett Almanac of Baseball Cards & Collectible 19th Edition is 1,344 pages and was released in 2014. The Almanac is broken down into three sections. The bulk of it is dedicated to Major League baseball cards and section two is reserved for Minors/Draft Picks and the final and shortest section is reserved for Vintage Minor League. Gone is the major index section and is replaced with a semi watered down version. Also the decent size print is reduced to small print. I don't know how they could have done it but it should have been sold as a two catalog set with bigger printing. Included this year are prices for baseball college cards. Beckett Almanac of Baseball Cards & Collectible 19th Edition gets a B-.

This book does not even include certain years for company cards such as Topps 1952 and 1953, Donruss 1981, etc. It was advertised as a comprehensive book of Baseball Collectibles, and I do not feel it meets its own defined criteria. It is not a fault of , but Beckett who published the book. It also has Jays Publishing info for Yankees I believe, but what about the Phillies, Dodgers, White

Sox, etc. Nothing in book about Drakes cards and/or panels, etc. Disappointed I spent this kind of money for a book that I thought would be of help and comprehensive.

One of the best resources of vintage and modern cards. The only downside is the print size and pricing near the binding is sometimes hard to see. Otherwise, one of the most complete and accurate guides available.

Solid as before but with only a few additions you can get away with buying one every few years.

A few pages had some small indentations. Only things that kept it from 5 stars.

VERY HAPPY WITH ALMANAC

Exactly what he wanted!!

it is very detailed from cards 1953 to 1999 this is a great beckett with tons of minor league cards and other miselanioues things like penates and all other kinds of stuff this is a great book
