The Art Of The Sports Car: The Greatest Designs Of The 20th Century

Synopsis

There are great cars, and then there are sports cars, those that have not only withstood the test of time but steadfastly defied it -- cars that have remained desirable and valuable for more than 50 years, to become the most treasured automotive artifacts of our time. Many of the automobiles pictured in this book are stunning examples of the motorcar and require no further credentials. Others have been selected because they were benchmarks in the history of the sports car in this century. Illustrated throughout, with more than three hundred color photos, this gorgeous profile of the most highly coveted cars on earth is sure to evoke the dream of all car enthusiasts: speed and adventure.

Customer Reviews

Auto buffs will be in raptures over this lusciously illustrated history of the sports car. Adler, editor of Car Collector magazine, provides a highly detailed account of the evolution of small cars with big engines, recounting the travails of famous auto designers, the engineering and styling innovations they pioneered and the races and road rallies at which cars proved (and advertised) themselves. His narrative dwells mostly on European makes such as Jaguar, Porsche and Ferrari, but also discusses the American Corvette and muscle cars like the Ford Thunderbird and the Dodge Challenger. Sounding a frankly erotic note, Adler writes that "this book is, then, about passion" and "lust" and "about whatever fuels your desires when...you whisper to yourself, 'I want one.'" Hard-core aficionados will derive much gratification from the detailed descriptions of mechanical

design and performance ("the engine developed 105 horsepower at 4,800 rpm, with a 72mm x 100 mm (2.8 inch x 3.9 inch) bore times stroke and 7.5:1 compression ratio"). But just about anyone will be entranced at the pictures of classic cars meticulously restored, polished to a sheen and photographed on opulent country estates. It's a "high-speed tour" of the greatest sports cars in history, enthuses the famously car-collecting Leno, and while this volume is a kind of car porn, many of these machines are indeed beautiful enough to merit the term "art." Copyright 2002 Reed Business Information, Inc.

Dennis Adler is the editor in chief of Car Collector magazine and consultant/historian/author for four publishers and organizations, including senior contributing editor of The Star -- the official publication of the Mercedes-Benz Club of America. He serves on the Meadow Brook Concours d'Elegance Selection Committee and as a chief class judge at the Meadow Brook and Amelia Island Concours d'Elegance. He is a noted portraitist of automotive collectors and their collections and is the author of twenty automotive books, including The Art of the Sports Car and The Art of the Automobile (Collins). He lives in western Pennsylvania.

A great book with great photos that somehow forgot to mention Lotus nor include any photos of the classic Elite and Elan or even a Porsche 550 which is almost unforgivable- even the Jaguar section has limited photos of the classic E type which many consider the most beautiful car ever. How you can skip over some of these cars is puzzling? Hence why I deducted two stars from what could have been a checkered finish.

This is a great book of historical sports cars, with lots of information and beautiful pictures. This is a neat reference and a great coffee table book, very informative and very very classy too! I really recommend this for a car person, or just someone who loves the history or simply the art of beautiful cars. Sam Kochel: STi driver

Great work of art - I love the history and evolution of the car. I would recommend it to any car lover. Photographs are KILLER and worth the purchase price alone.

Not a single article for any Japanese cars, not even one. Where is the 2000GT, GT-R, NSX, Supra, RX-7, Miata, Z cars and more?

This book is a beautiful. You do not have to be a car enthusiast to enjoy this book, where art and beauty come together in a well-detailed book. An excellent edition to any coffee table collection.

The author does it again! This time he captures 50 of the best sportscars with purpose made photography, done especially for the book, and writes simple but very informative text so everyone can relive the best of the best.Bravo!
