Customer Reviews

[Edit: replaced screenshot]There's probably good content in here somewhere, but you'll have trouble finding it since the indexing of the document is completely poked. Take the attached screenshot for example - searching for the word 'heart' returns no results even though the quest

wild at heart is mentioned on the current page. Searching for 'silver' also returns no results, but searching for Cirri or Griffin seems to be fine. To make sure this wasn't a problem with the PC kindle reader I did the same searches on my Android phone and got the same results. Also, the entire guide is text only - no images or maps, so the document only really works if you read it start to finish (e.g. 'go north west from the bandit camp' is only useful if you know your relative position). Price is good for the amount of content; if the indexing was fixed up I'd give it 4 stars.

GREAT SELLER FAST AND ACCURATE

An RPG guide with no mission index? Impossible to follow
