Highway Centerlines (Retracement): Step By Step Guide (Surveying Mathematics Made Simple) (Volume 14)

Synopsis

This book contains 200+ pages of never before published information detailing how to retrace a highway, road, easement or other controlling centerline. This book includes a new analysis method titled "Crume's Transformation" that was developed by the author based upon 25+ years of experience of performing highway centerline retracements. The trick to using Linear Regression for tangent line analysis and curve fitting is explained. Details are shown for integrating CADD, COGO, Google Earth, KMZ files to display survey information and setting up spreadsheet programs to perform the analysis.

Book Information

Series: Surveying Mathematics Made Simple

Paperback: 208 pages

Publisher: CreateSpace Independent Publishing Platform; 1 edition (June 20, 2015)

Language: English

ISBN-10: 1514622742

ISBN-13: 978-1514622742

Product Dimensions: 5.5 x 0.5 x 8.5 inches

Shipping Weight: 11.7 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #984,205 in Books (See Top 100 in Books) #97 in Books > Engineering & Transportation > Engineering > Civil & Environmental > Surveying & Photogrammetry

Customer Reviews

My land surveying career began several decades ago while attending Albuquerque Technical Vocational Institute in New Mexico and has traversed many states such as Alaska, Arizona, Utah and Wyoming. I am a Professional Land Surveyor in Arizona, Utah and Wyoming. I am an appointed United States Mineral Surveyor and a Bureau of Land Management (BLM) Certified Federal Surveyor. I have many years of computer programming experience related to surveying. This book is dedicated to the many individuals that have helped shape my career. Especially my wife Cindy. She has been my biggest supporter. She has been my instrument person, accountant, advisor and my best friend. Without her, I would not be the professional I am today. Cindy, thank you very much.

Great book!
