Exploring Theology (Foundations For Learning)

Synopsis

Fortress Press's Foundations for Learning series prepares students for academic success through compelling resources that kick-start their educational journey into professional Christian ministry. In *Exploring Theology*, Elaine A. Robinson introduces readers to the study of theology as a central task of all Christians and one that deserves careful and consistent attention. Following a lively examination of what theology is and how we do it, Robinson provides a basic map of the major doctrines of the faith and asks readers to consider their own beliefs at this important point in their journey. She invites readers to think of theology as a stream into which we enter and which carries us deeper into the vast ocean which is the fullness of God. Designed for those who are beginning a more serious study of theology, *Exploring Theology* helps readers navigate what might, at first glance, appear as a confusing or abstract subject. Navigational aids include an introduction to theological vocabulary, the sources and methods of theology, and tips for reading primary sources as a spiritual discipline. As a result of this journey, readers will be excited to delve more deeply into theology and will recognize the many ways that theology shapes how we live out the Christian faith in the world.

Customer Reviews

Elaine A. Robinson is Academic Dean and Professor of Methodist Studies and Christian Theology at Saint Paul School of Theology at Oklahoma City University. She is the author or editor of several

books on contemporary theology and an ordained elder in the United Methodist Church.

This book, designed for seminary students at the beginning of their studies, could work well for a guided church workshop. It breaks down many complicated theories to allow the reader to interact with God and the reader's beliefs. I hope to use this book for future church devotions.

great

extensive information in one book, easy to read - excellent intro/overview of usually difficult to understand topic -
